KUVA21SLPR Bachelor of Culture and Arts, Fine Arts 21S, full-time studies, Lappeenranta: 240 ECTS

KUVA21SLPR-1012 Common studies: 15 ECTS

AY00BU47 Developing professional competence 1: 1 ECTS

Learning outcomes

The student is able to

- plan their own learning and cooperate in situations related to their own field of studies
- recognize their own competence and the needs to develop them further and to plan their careerpath observing them
- act as a group member- operate in the learning environments of LAB University of Applied Sciences
- picture their own field of studies and its future skills- give feedback on tuition and services and thus participate in the development of education

AY00BU48 Developing professional competence 2: 1 ECTS

Learning outcomes

The student is able to

- utilize various learning opportunities in curriculum
- recognize and aim their own competences to be in level with the future career requirements
- create a study plan that supports the future career goal
- give feedback on tuition and services and thus participate in the development of education

AY00BU49 Developing professional competence 3: 1 ECTS

Learning outcomes

The student is able to

- identify themselves as a learner and develop their own learning skills- evaluate innovative or

alternative future competences required in their own field

- recognize and aim their own competences to be in level with the future career requirements
- masters the professional concepts of their own field and is able to point out their competencies during job recruitment processes
- give feedback on tuition and services and thus participate in the development of education

A300CJ89 Orientation to Sustainability Thinking: 2 ECTS

Learning outcomes

Identify and define central concepts and frameworks related to sustainability. Recognize the interconnectedness of economic, social and environmental sustainability issues. Understand and develop own individual role in driving sustainability.

Evaluation criterias

Level 1

Pass-Fail

KE00BT61 English for Work: 4 ECTS

Learning outcomes

Proficiency level: B2

The student is able to

- communicate clearly and effectively in different generic and field-specific workplace situations both orally and in writing
- find, evaluate and use information effectively
- function collaboratively in international working environments.

KR00BU42 Swedish for Work, Spoken: 1 ECTS

Learning outcomes

The student is able to

- convey and validate arguments
- use vital field-specific vocabulary
- communicate essential matters about their education, work experience and tasks
- present their field-specific operational environment
- communicate in various working life situations in Swedish

The student completes the Public Administration Language Test in Swedish.

KR00BU43 Swedish for Work, Written: 1 ECTS

Learning outcomes

The student is able to

- use vital field-specific vocabulary
- communicate essential matters about their education, work experience and tasks
- understand and produce various short texts related to studies and working life
- acquire information on their field in Swedish

-use online dictionaries

The student completes the Public Administration Language Test in Swedish.

KS00BT59 Expert Communication Skills: 4 ECTS

Learning outcomes

Proficiency level: C2

The student masters Finnish language as a mother tongue in all professional spoken and written communication situations.

KUVA21SLPR-1013 Professional Core Competence: 135 ECTS

KUVA21SLPR-1014 COMPETENCIES IN INDIVIDUAL ART STUDIES: 55 ECTS

AM00BV65 Color and Composition: 5 ECTS

Learning outcomes

Students will be able to

- express colour theory and interrelations through visual exercises
- verbally describe the impressive, expressive and symbolic nature of colours and colour combinations and apply this knowledge in visual exercises
- creatively apply the rules of colour interaction
- discuss the classical colour theories and their application in fine arts and design.

AM00CA60 Observation and Drawing: 5 ECTS

Learning outcomes

Student:

- learn an introduction to the fundamentals of drawing, covering areas such as light and shadows, values, and line
- learn an introduction to the use of collage as a basic medium and form of expression
- learn an introduction to "mark-making". In other words, using non-traditional tools and methods for making marks.
- learn the basics of installation and presentation of their works.
- gain knowledge of various artists, both historically and contemporary practice.

AM00CB85 Digital tools: 5 ECTS

Learning outcomes

Student

- is able to operate in the online environment of a university of applied sciences
- knows the basics of image processing
- knows the simple basic use of the layout program
- is able to make a simple portfolio in electronic form
- can print with available printers

AM00CD94 Basics of drawing: 5 ECTS

Learning outcomes

Student:

- knows the basics of drawing
- can express by drawing
- learn the basics of anatomical drawing
- can relate drawing to contemporary art
- understand the importance of drawing in making art

KKU1105 Basics of Painting: 5 ECTS

Learning outcomes

.Student

- is able to think and express visually
- knows the basics of painting and internalizes the working culture of painting
- knows the basics of pictorial thinking, the basics of painting and safe ways of working
- is able to perceive the expanded field of painting as part of one's own work

KKU1106 Basics of Printmaking: 5 ECTS

Learning outcomes

.Student

- knows the basics and history of printed art
- knows the basics of woodcut and metal graphics
- be able to handle materials used in techniques
- knows professional vocabulary and is familiar with the means of expressing graphic art
- is able to work in the workshop independently and safely.

Basic studies are the basis for advanced professional studies in art graphics.

KKU1107 Basics of Photography: 5 ECTS

Learning outcomes

Student

- learn to use professional photographic equipment and work in a digital image processing environment
- learns visual thinking and the possibilities of expressing photographic art

KKU1108 Basics of Video: 5 ECTS

Learning outcomes

Student

- know the basics of moving image and sound in digital form
- is able to use work-related technical equipment safely
- knows the basics of cinematic narration

- can relate video to contemporary art

KKU1109 Basics of Jewellery Art: 5 ECTS

Learning outcomes

.Student

- is able to identify the basics and phenomena of the history of jewellery
- is able to relate jewellery to contemporary art
- knows the basics of workshop work
- is able to utilize the basics of jewellery in his / her own expression
- is able to work thematically independently and in a group

KKU1110 Basics of Sculpture: 5 ECTS

Learning outcomes

Student

- knows the basics of sculpture
- is able to identify working methods related to sculpture
- understand sculpture as part of the field of contemporary art
- masters safe working methods

AM00CD83 Contextual-Art and Place-based Art: 5 ECTS

Learning outcomes

Student

- learn Contextual Art encompasses art forms that have been variously defined as Environmental Art, Site-Specific Art, Art in Public Places, Site-Conditioned, and Land-Art.
- learn introduction to the history, development, and contemporary practices of Contextual Art
- learn with the tools and experience in how to engage and analyze the public space. Students
- learn to develop skills and awareness of all the perceptual, haptic, tactile, historical, social, and natural forces that have shaped that a particular place or space.
- learn to develop skills in how to develop ideas, images, and actual artworks in response to the spaces under consideration.

KUVA21SLPR-1015 INDIVIDUAL ART STUDIES: 50 ECTS

KKU1120 Individual Art Studies 1: 5 ECTS

Learning outcomes

Student

II year of study

- is able to conceive, plan and implement a work of art and reflect on his or her artistic work process and works
- is able to describe, tell and analyze artistic work and production
- knows old and new ways of doing visual art and applies them to artistic work
- is able to work in a supervised, disciplined, independent and creative way
- knows the discourses of visual arts, philosophy and history of art and the current state of art.

III year of study

- is able to use and apply the methods of making art when producing art
- identify and utilize art concepts
- is able to arrange a safe work space, materials and equipment necessary for the practice of the profession
- knows the economic rationale for practicing as a visual artist
- is able to present his / her own skills
- is able to cooperate with other actors.

IV year of study

- is able to evaluate, develop and expand his / her artistic, content and technical competence in his / her thesis
- is able to connect one's own artistic activity to the field of contemporary art and society
- find a professional identity and develop professionally
- knows the art field

KKU1121 Individual Art Studies 2: 5 ECTS

Learning outcomes

.Student

II year of study

- is able to conceive, plan and implement a work of art and reflect on his or her artistic work process and works
- is able to describe, tell and analyze artistic work and production
- knows old and new ways of doing visual art and applies them to artistic work
- is able to work in a supervised, disciplined, independent and creative way

- find a professional identity and develop professionally
- knows the art field

KUVA21SLPR-1016 ART CRITICISM AND ANALYSIS: 15 ECTS

AM00BV12 History of Art: 5 ECTS

Learning outcomes

The student is able to

- describe the main developments in the history of art
- understands connections between art and design
- evaluate different interpretations of the history of visual expression
- use the styles of different epochs in visual design and her/his own expression

KKU0946 Contemporary Art: 3 ECTS

Learning outcomes

Student

- knows the discourses of visual arts, art philosophy and history and the current state of art
- knows the art field
- is able to describe, tell and analyze artistic work and production
- is able to identify, evaluate and develop his / her own skills in relation to the art field
- is able to contextualize one's own and others' artistic work in the frame of reference of visual arts.

KKU1016 Introduction to Aesthetics: 3 ECTS

Learning outcomes

Student

- knows basic knowledge of basic questions and answers about art and aesthetic value
- learns theoretical reading and writing of a text

KKU1154 Read, analyse, write 1: 1 ECTS

Learning outcomes

Student

- is able to use information sources in his / her field
- is able to write in accordance with the formal requirements of the polytechnic's writing instructions
- is able to analyze and write skills and is able to comment on a professional discussion in the field of visual arts both in order to work in the field and to practice the knowledge and skills needed in the thesis.

KKU1155 Read, analyse, write 2: 1 ECTS

Learning outcomes

Student

- can use different sources of information
- is able to write in accordance with the formal requirements of the polytechnic's writing instructions
- is able to develop his / her analytical and writing skills, especially in relation to his / her own work and its starting points to contemporary art phenomena, art, the art world or the world in general
- is able to comment on a professional discussion in the field of visual arts both in order to work in the field and to practice the knowledge and skills needed in the thesis.

AM00CA95 Research and development of thesis: 2 ECTS

Learning outcomes

Student

- knows the research and development methods and their use in the thesis

KUVA21SLPR-1017 PROFESSIONAL COMPETENCE: 15 ECTS

AM00BV78 Profession in the Creative Industry: 5 ECTS

Learning outcomes

The student is able to

- identify entrepreneurial competence requirements and evaluate their personal competencies
- identify and assess opportunities in the business environment of their chosen field
- plan a business operation, map finance opportunities and assess the viability of a business
- identify common contract types, legislation and practices specific to their chosen field
- take into account copyright law and intellectual property rights in their work.

KKU0943 Artist and Society: 2 ECTS

Learning outcomes

Student

- identifies actors in society belonging to the artist's operating environment
- understand the basic principles of financing the arts
- is able to evaluate the contexts and challenges related to the artist's working life

AM00CJ99 Portfolio and documentation 1: 2 ECTS

Learning outcomes

Student

- is able to describe his / her own works and document his / her artistic production and learns to use his / her documents as a presentation tool
- learns to present an image portfolio in both electronic and printed form
- learns the presentation of portfolios on social media through digital image processing and professional layout programs

AM00CK00 Portfolio and documentation 2: 4 ECTS

Learning outcomes

Student

- learns to master the systematic documentation of works and exhibitions in a variety of shooting conditions
- learn to design a professional portfolio
- learns the presentation of personal artistic productions and projects as well as visual and written skills
- learns the use of different electronic platforms in the presentation of artistic production

AM00CK01 Portfolio and documentation 3: 2 ECTS

Learning outcomes

Student

- learns to master the documentation of one's own artistic production in challenging lighting conditions and is able to take advantage of studio lighting.
- versatile masters the means and documentation tools in preparing a high-quality presentation portfolio.
- learns to clearly express the scales, materials and their technical implementations in the presentation of artistic production
- learns to express the true nature of artistic production through written and pictorial presentation

KUVA21SLPR-1018 Complementary Competence: 45 ECTS

KUVA21SLPR-1019 METHODS OF ARTISTIC EXPRESSION: 40 ECTS

KKU1130 Colors in intaglio printmaking - Edition and unique prints: 5 ECTS

Learning outcomes

Student

- knows the basics of multi-plate color printing in rotogravure
- understand the nature of a series of prints and a single draft
- is able to print a uniform set of drafts and version the set in color
- know how to print gravure and draft markings

- understand the possibilities of monotype in making unique prints
- is able to work on methods independently and safely
- knows the equipment used in the techniques and is able to maintain them
- knows the history of methods and is able to reflect history in relation to one's own expression

AM00CB86 Spatiality and size in printmaking: 5 ECTS

Learning outcomes

Student

- identify aspects related to the size of graphic art from both historical and contemporary perspectives
- be able to assess special issues related to making large prints
- be able to plan the space of a work and take into account the requirements of the space
- is able to plan and schedule his / her work
- is able to use methods suitable for designing and making a work
- is able to reflect on the challenges of presenting a work
- is able to cooperate with others

KKU1132 Versatile Serigraph: 5 ECTS

Learning outcomes

Student

- skills the basics of serigraphy and identifies the possibilities of technology in making art
- can make works independently using the basic methods of serigraphy

KKU1133 Special topics in printmaking: 5 ECTS

Learning outcomes

Student

- knows the basics of special courses in different graphics and identifies the possibilities of its technology in making art
- is able to make works independently with special methods of graphics

KKU1134 Painting: Temperature of colour and spatial illusion: 5 ECTS

Learning outcomes

Student

- is able to utilize the properties of color in his / her own work in creating the illusion of space
- knows the means of creating content as part of his artistic process
- understands the importance of occupational safety for oneself and the surrounding community

KKU1135 Painting: Perspectives: 5 ECTS

Learning outcomes

Student

- is able to perceive the effect of spatial illusion and perspective tools on the relationship between the viewer and the illusory painting

- knows the laws of the creation of the spatial illusion of painting
- is able to implement works using advanced perspective tools

KKU1137 Conceptual in Painting: 5 ECTS

Learning outcomes

Student

- is able to map the conceptual dimensions of painting
- be able to perceive the relationship of artistic work to linguistic thinking and map the relationship of the work to other media (intermediality), such as photography, moving image and text and other works, art history archives and other contemporary art (intertextuality).
- can read contemporary paintings: how my works open to others, how they are experienced and what kind of thinking they evoke.

KKU1136 Jewellery and Painting, colour and body: 5 ECTS

Learning outcomes

Student

- is able to utilize the techniques and views of different fields of art in his / her own work
- has an in-depth knowledge of the formation of the meanings of color in the reading of contemporary art
- is able to progressively execute works in the chosen ways
- is able to work independently and in cooperation with others
- is able to plan and implement one's own projects alone or together with others
- is able to evaluate one's own work and the work of others
- knows professional practices and terms well
- knows the professional vocabulary well and is able to communicate on an equal footing with visual arts professionals.

KKU1146 Jewellery, Small series production: 5 ECTS

Learning outcomes

Student

- is able to use both traditional and new jewelry art methods and technical means of expression in the production of small series
- know the basics of different techniques and materials
- is able to integrate repetition and variation into the work process
- know the basics of workshop work, taking into account occupational safety
- be able to evaluate and choose suitable material and technology for each work
- knows the process of making a work holistically

KKU1147 Jewellery, Versatile stone: 5 ECTS

Learning outcomes

Student

- is able to work stone with different techniques
- is able to identify different types of stones and their special features
- knows the occupational safety of stone processing equipment and basic maintenance of machines

- can use stone as part of one's own expression
- is able to work thematically independently and in a group

KKU1145 Conceptual in contemporary jewellery: 5 ECTS
